

## Alburgh Millennium Garden

### Report to Annual Meeting of Alburgh Parish Council, 2025

The past year at the Millennium Garden has seen some plants, shrubs and bulbs that were donated last year beginning to look well established. We have made some of the flower beds bigger to accommodate more and different plants. The bee orchids continue to grow and multiply and have been joined by some pyramid orchids, both rare and protected species of wild flower. The pond has been tidied up and some lilies and marsh marigolds have been kindly donated.

The Platinum Jubilee Medlar continues to grow and produce a lot of fruit – anyone wanting to try making medlar jelly or any other recipe from the fruit should speak to one of the gardeners who will supply them when they are ready.

Thanks to the Parish Council we now have a small shed to store tools, water carriers, etc., which have also been generously donated. Any more donations of tools, and even a wheelbarrow, would be much appreciated.

We are a small band of helpers and would love others to join us. If interested in helping in any way, please contact me on 01986-788815 or email [jcandabailey@btinternet.com](mailto:jcandabailey@btinternet.com) or contact the Parish Council.
